

ARYAN

Full-Stack Developer | Software Engineer | MERN stack Developer

Delhi NCR, India | +91 9971882367 | 642singharyan@gmail.com | | LinkedIn | Portfolio

Professional Summary

Software Engineering graduate from Delhi Technological University (DTU) with hands-on experience building secure backend systems and full-stack web applications using Node.js, Express.js, MongoDB, and React.js. Experienced in developing REST APIs, implementing JWT authentication, role-based access control (RBAC), and MVC architecture. Skilled in integrating AI capabilities with modern web applications using Python, FastAPI, and LLM APIs. Seeking Backend Developer or Full-Stack Developer roles.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python (Intermediate), C++

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Responsive Design.

Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC, MVC Architecture, Middleware, bcrypt.

Databases: MongoDB, Mongoose, Data Modeling, PostgreSQL (Intermediate).

Developer & AI Tools: Git, GitHub, Docker, AWS, Postman, Render, Vercel, VS Code, CI/CD Pipelines, ChatGPT, Claude, Cursor.

Core Computer Science: DSA, OOPs, Computer Networks.

PROJECTS

Aryan's-AI — AI-Powered Portfolio Assistant

Live link: <https://candidate-ai-omega.vercel.app/> | GitHub link: <https://github.com/Aryanss02/CandidateAI>

React.js • FastAPI • Python • Groq • LLM • REST API • Vercel • Render

- Built a full-stack AI assistant using React.js, FastAPI, Python, and Groq LLM to answer natural-language questions about professional experience, skills, projects, education, and certifications.
- Implemented **streaming LLM responses**, conversation history, and PDF resume parsing using PyPDF with structured data validation through Pydantic.
- Deployed the React frontend and FastAPI backend separately using **Vercel** and **Render**.

Eventora - Full-Stack Event Booking Platform

Live link: <https://eventora-red.vercel.app/> | GitHub link: <https://github.com/Aryanss02/Eventora/>

React.js • Tailwind CSS • Node.js • Express.js • MongoDB Atlas • JWT Authentication • RBAC • REST APIs

- Developed **13 RESTful APIs** for user authentication, OTP verification, event management, bookings, and administrative operations using Node.js, Express.js, and MongoDB.
- Designed MongoDB schemas for Users, Events, Bookings, and OTP verification while implementing JWT authentication, RBAC, reusable middleware, and protected API routes.
- Built separate Admin and User dashboards with React.js, deployed the application using Vercel, Render, and MongoDB Atlas, and validated APIs using Postman.

Bank Transaction System

GitHub link: <https://github.com/Aryanss02/Bank-Transaction-System>

Node.js • Express.js • MongoDB • JWT • MVC • REST APIs

- Developed **8 RESTful APIs** for authentication, account creation, balance management, and secure fund transfers.
- Designed MongoDB models for Users, Accounts, Transactions, Ledgers, and Blacklists with secure data relationships and request validation.
- Implemented JWT authentication, authorization middleware, centralized error handling, and an MVC architecture to build a secure backend.

Music Streaming Backend

GitHub link: <https://github.com/Aryanss02/spotify-backend>

Node.js • Express.js • MongoDB • JWT • RBAC • MVC • REST APIs

- Developed **8 RESTful APIs** supporting authentication, music uploads, album management, and catalog retrieval.
- Designed scalable MongoDB models for Users, Music, and Albums while implementing JWT authentication and role-based access control.
- Built the backend using the MVC architecture, reusable middleware, centralized error handling, and tested all APIs using Postman.

EXPERIENCE

Backend Developer Intern LOGIXWEB	Jun 2025 – Aug 2025
Internship Certificate link: https://drive.google.com/drive/folders/1k3f6BL4V178RO2mQPYjq1qminEoy4EIV?usp=sharing	
- Developed RESTful APIs using Node.js, Express.js, and MongoDB by designing scalable backend architecture, data models, and secure server-side workflows. - Implemented JWT authentication, authorization middleware, protected routes, and optimized request handling to improve application security and reliability. - Tested and debugged REST APIs using Postman, improved error handling, and collaborated with the development team in an Agile environment to deliver backend features on schedule.	

EDUCATION

B.Tech in Software Engineering (completed)	2022 – 2026
Delhi Technological University, New Delhi	
CBSE Class XII	2020
The Union Academy Senior Secondary School, New Delhi
