

ARYAN

Full-Stack Developer | Software Engineer

Delhi NCR, India | +91 9971882367 | 642singharyan@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with a **Bachelor's degree in software Engineering (2026)** and hands-on experience building modern web applications using **React.js, Node.js, Express.js, PostgreSQL, and MongoDB**. Experienced in developing **RESTful APIs, JWT authentication, role-based access control (RBAC), database-driven applications, and AI-powered features**. Strong foundation in Data Structures & Algorithms, DBMS, and Operating Systems, with a focus on writing clean, maintainable, and scalable code. I enjoy turning real-world problems into practical software solutions and continuously improving my skills across full-stack development and AI integration.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, FastAPI

Databases: PostgreSQL, MongoDB, MySQL

Authentication & Security: JWT, RBAC, bcrypt, Authentication Middleware.

DevOps & Developer Tools: Git, GitHub, Docker, Postman, OpenAPI, Vercel, Render, VS Code

AI: Groq API, Prompt Engineering, AI API Integration

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

PROJECTS

TeamFlow — Project Management SaaS **Live :** <https://teamflow-six-delta.vercel.app/> | **GitHub :** <https://github.com/Aryanss02/teamflow>

Node.js, Express.js, PostgreSQL, React.js, Docker, JWT, Groq AI REST API • Vercel • Render

- Built a full-stack project management SaaS with **JWT authentication, RBAC**, organizations, projects, tasks, comments, and team member management.
- Developed **RESTful APIs** using **Node.js + Express.js** with **PostgreSQL** for relational data management and **Docker** for containerized database infrastructure.
- Implemented protected organization and project workflows using middleware-based **authentication and authorization**, including owner/member role management.
- Integrated **Groq-powered AI** to generate project tasks from natural-language requirements and create AI-generated project status summaries using project context.
- Built a **React.js** frontend with authenticated API communication, project/task workflows, and role-aware UI; documented and tested APIs using **Postman**.
- For Demo : email: aryan@example.com, Password: password123

Aryan's-AI — AI-Powered Portfolio Assistant **Live :** <https://candidate-ai-omega.vercel.app/> | **GitHub :** <https://github.com/Aryanss02/CandidateAI>

React.js • FastAPI • Python • Groq • LLM • REST API • Vercel • Render

- Built a full-stack **AI portfolio assistant** using **React.js, FastAPI, Python, and Groq LLM** to answer natural-language questions about professional experience, skills, projects, education, and certifications.
- Implemented **streaming LLM responses** and **conversation history** to support interactive, ChatGPT-style conversations.
- Integrated **PDF resume parsing** with **PyPDF** and structured data validation using **Pydantic** to process professional profile information.
- Deployed the **React.js frontend** and **FastAPI backend** separately using **Vercel and Render**.

Eventora - Full-Stack Event Booking Platform **Live :** <https://eventora-red.vercel.app/> | **GitHub :** <https://github.com/Aryanss02/Eventora/>

React.js • Tailwind CSS • Node.js • Express.js • MongoDB • JWT Authentication • RBAC • REST APIs

- Developed **13 RESTful APIs** for user authentication, OTP verification, event management, bookings, and administrative operations using **Node.js, Express.js, and MongoDB**.
- Designed **MongoDB schemas** for Users, Events, Bookings, and OTP verification with reusable middleware, **JWT authentication, RBAC, and protected routes**.
- Built separate **User and Admin dashboards** using **React.js and Tailwind CSS** for event and booking management.
- Deployed the application using **Vercel, Render, and MongoDB Atlas** and validated **REST APIs** using **Postman**.

EXPERIENCE

Backend Developer Intern LOGIXWEB https://drive.google.com/drive/folders/1k3f6BL4V178RO2mQPYjq1qminEoy4EIV?usp=sharing - Developed RESTful APIs using Node.js, Express.js, and MongoDB by designing scalable backend architecture, data models, and secure server-side workflows. - Implemented JWT authentication, authorization middleware, protected routes, and request validation to secure API access and user operations. - Tested and debugged APIs using Postman, improved error handling, and resolved backend issues during development. - Collaborated with the development team in an Agile environment to implement, test, and refine backend functionality.	Jun 2025 – Aug 2025
---	---------------------

EDUCATION

B.Tech in Software Engineering Delhi Technological University, New Delhi CGPA: 6.25	2022 – 2026
CBSE Class XII The Union Academy Senior Secondary School, New Delhi Score: 63%	2020
CBSE Class X Indian National Public School, Greater Noida, Uttar Pradesh Score: 60%	2018

CERTIFICATIONS

- Introduction to Internet of Things** — NPTEL (IIT Madras) | <https://drive.google.com/file/d/1AT8H97MRJ297at1ao8bf5EVML51OK1DY/view?usp=sharing>
- The Joy of Computing Using Python** — NPTEL (IIT Kharagpur) | <https://archive.nptel.ac.in/content/noc/NOC24/SEM2/Ecertificates/106/noc24-cs113/Course/NPTEL24CS113S85090150003941836.pdf>

LEADERSHIP & ACTIVITIES

- Mentored five students in selecting academic pathways and career opportunities through the **Delhi Government's Desh Ke Mentor** initiative.
